 - Services focused on safety at work and environmental protection (Management of chemicals, biodegradability, etc.)

***Unique
experience
from over 70
years
worldwide.***

A few Examples

- OEKO-TEX® requirements
- PPE Certification
- Workshops such as material testing, clothing technology or biocompatibility
- Accompanying product development
- Technical performance descriptions
- Discounter/own brand clothing (fit, clothing sizes and many more)
- Contract research

***We Leave an
Impression.
But Not Just Once.***

Hohenstein Quality Label

As a result of the scientifically proven and practical requirements, our quality label enjoys a high level of credibility with retail outlets and consumers and has a high recognition value.

Consumers see the Hohenstein Quality Label and are quickly and conveniently reassured of the special quality of your product.

Condition for the awarding:

Your product fulfils defined minimum requirements regarding the tested qualities.

OEKO-TEX®

STANDARD 100 by OEKO-TEX®

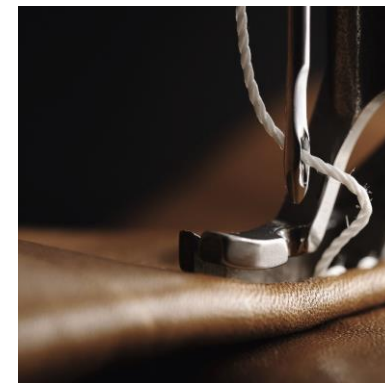

is a worldwide, independent testing and certification system for raw, semi-finished, and finished textile products at all processing levels.

LEATHER STANDARD by OEKO-TEX®

is a globally standardized, independent certification system for harmful-substance-tested leather articles of all production stages.

MADE IN GREEN by OEKO-TEX®

Is awarded to textile consumer products which are made of materials tested for harmful substances under socially responsible working conditions and are produced in environmentally friendly production facilities.

UV STANDARD 801

Textiles are almost predestined as UV protection for your customers as they can offer particularly good protection from intense sunlight due to the use of suitable materials and designs. Hohenstein is a founding member of the **International Test Association for Applied Protection** against UV Radiation which developed the UV STANDARD 801.

***The next big hit:
Textile Safety.***

Rethink

We rethink current methods and always offer now, innovative solutions.

Response

We're there for our customers, worldwide.
We give answers.

Responsibility

We stand for tested safety.
We take responsibility.

What we do

Hohenstein is an impartial, neutral business in the fields of testing, certification and research with a focus on textiles.

We offer a wide variety of services all along the supply chain.

Why we do it

We believe in the fascinating possibilities of textile innovation for both people and the environment.

Therefore, we do everything we can with passion, to ensure that new products come onto the market reliably and safely.

How we do it

We think of ourselves as a far-sighted problem solver for our customers, with tailor-made, innovative offers including testing, certification and service.

We set trends and standards with our experience of over 70 years and our textile specialisation. Worldwide, our culture is characterised by the transfer of knowledge, sustainability and customer focus.
